Nomex

We're dedicated to your safety.

LION has a long legacy of introducing ground-breaking products and services designed to ensure the health, safety and performance of the first responders who serve our communities and our country. Our extensive suite of PPE innovations work to best prepare firefighters, EMS teams and law enforcement officers for the dangers they face each day, keeping them safe and **ready for action** – before, during and after.

LION'S PPE INNOVATIONS INCLUDE:

- **IsoDri® Moisture Management System** manages moisture by a combination of materials that block outside sourced water, wick perspiration off the body and resist storing water inside the thermal barrier. Keeps working weight low and helps guard against steam injuries.
- **LION Ventilated Trim™** provides a conduit for vapor release and guards against the potential hazards of trapped moisture, without adding weight to the garment.
- **V-Force® Turnout Gear (with V-Fit® Design)** is based on the contoured, stress-reducing, action-focused garments worn in combat and sports. This dynamic cut-in-motion design results in a more body-friendly fit that increases mobility and comfort, without sacrificing safety.
- **Freedom® Design Mobility System** reduces firefighter stress through a series of innovative, ergonomic features that help deliver exceptional comfort and mobility.
- **Semper-Dri™** reduces absorption in key areas, keeping garments drier and working weight lighter.
- **Lite-N-Dri™** water-resistant foam padding in turnout garments adds thermal protection to high-compression, high-risk areas.
- **Ever-Dry™ Reach System** reduces vulnerability to water, steam and flame when reaching.
- **5-Point Configuration & Center of Gravity™** technology which provides custom-fit helmets.
- **CenterCut™ and CenterCut™ PLUS with GORE-TEX Barrier Technology.s** offer enhanced thermal protection with very little increased weight and loss of comfort, while helping to protect the moisture barrier.

Ventilated Trim: Helping Firefighters Reduce Compression Burns

VENTILATED TRIM

The perforations on Ventilated Trim provide a conduit for vapor to move away from the firefighter's body.

IMPERMEABLE TRIM

On impermeable trim, moisture can accumulate between the outer shell and trim. When the trim is compressed and heated, the trapped moisture can vaporize and transfer heat toward the firefighter's body.

3M™ Scotchlite™ Reflective Material

PPE INNOVATION

KEEPING YOUR TURNOUTS DRIER, FASTER.

Outer shell is treated with durable water repellancy to reduce moisture intake from outside sources such as hose water and rain.

Moisture barrier that allows body heat, in the form of vapor, to escape, but keeps liquid out.

Thermal insulation is treated with durable water repellancy to shed moisture generated by the body and maintain high thermal performance. AraFlo® promotes air permeability to allow vapor to be released by the body and more easily transported away from the skin.

Face cloth wicks perspiration away from the body.

Firefighters wearing gear with IsoDri® have reported that their **gear is dry and comfortable in less than 30 minutes.**

When you're wearing SCBA and dragging a fully-charged hose line, the last thing you need is your gear sucking up water and adding more weight to your gear.

LION innovated, and continues to lead, with the game-changing **IsoDri® Moisture Management System**. IsoDri is more than just an outer shell that resists water penetration and absorption. Instead, **it's a complete system of components**.

These work together to reduce the water in your turnout gear and the dangers that water presents.

Each IsoDri component is engineered to reduce water intake and transport moisture away from the body. This reduces the heat storage capacity and working weight, resulting in safer, more comfortable turnout gear.

So, if your turnout gear doesn't have **all five of these components**, it isn't an IsoDri Moisture Management System:

1. **Outershell that helps block liquid from external sources**
2. **Thermal liner insulation that reduces moisture regain from sweat and other water sources**
3. **High-lubricity face cloth that wicks perspiration away from the body**
4. **Semper Dri® face cloth and thermal insulation (both molecularly bonded with durable water repellancy) in sleeves, lower legs and shoulder/yoke to reduce absorption**
5. **Wristlets treated with durable water repellancy to repel moisture from outside sources**

GORE®
PARALLON™
LINER SYSTEM

PPE INNOVATION

REDUCING TURNOUT WATER GAIN

Semper Dri™ System

Thermal liners on conventional turnout pants have a tendency to absorb water from fireground activities at the bottom of the leg and migrate upward, sometimes even beyond the knees. This makes gear uncomfortable and heavy, contributing to body stress (and possible burn injury) during firefighting activities. It can also require more drying time.

To reduce the stress on you and turnout wear, Semper Dri...

- Employs a special treated thermal liner material to reduce absorption, staying drier and lighter
- Is standard in the waterwells of turnout coat sleeves and in the shoulder/yoke area of coat liners and the bottom of pant liners.
- Helps reduce turnout gear drying time

Excess gear weight can also pull the hems of the pants down, causing contact with the ground. This can contribute to premature wear at the cuffs and pant seat.

In comparative field tests, garments using Semper Dri material in the lower legs were noticeably lighter in weight after structural firefighting activities and training exercises involving high volumes of water.

TURNOUT GEAR KNEE PROTECTION

A firefighter's knees are vulnerable to compression burns unless a properly constructed reinforcement system is used. LION offers two outstanding systems that provide superior comfort while kneeling or crawling:

Lite-N-Dri™ Knee Water-Resistant Cushioning

All LION pants include a layer of Lite-N-Dri cushioning between the moisture and thermal barrier for increased thermal protection and comfort.

Lite-N-Dri is impermeable to vapor and a proven heat blocker. This is further enhanced with another layer of Lite-N-Dri between the outer shell and the knee reinforcement. The additional layer of Lite-N-Dri gives you 150% more thermal protection.

FireWall™ Knee Silicone Foam Cushioning

The FireWall Knee has the same design as the Lite-N-Dri system. However, silicone foam is used between the outer shell and the knee reinforcement. Silicone has outstanding thermal resistance and delivers 250% more thermal protection than a standard turnout knee system.

WHERE THERE'S SMOKE... THERE ARE SOLUTIONS.

CONTAMINANT CONTROL

SETTING THE BAR FOR PARTICULATE PROTECTION

REDZONE™

Contaminant Control Package

When you arrive on the scene of a fire, your personal protective equipment (PPE) is immediately exposed to a number of toxic chemicals – exposure that can result in serious health problems. That includes cancer, which is currently the leading cause of U.S. firefighter deaths. With that fact in mind, LION has developed **RedZone™**, our exclusive contaminant control package.

Developed in partnership with the **U.S. Department of Homeland Security (DHS)** and **North Carolina State University's Textile Protection and Comfort Center**, RedZone features five particulate-blocking zones designed to help reduce your exposure to the dangers lurking in fireground smoke, keeping you ready for action.

RedZone is also the **only UL tested and verified** particulate-blocking gear on the market.

ZONE 1: PARTICULATE-BLOCKING HOOD

A breathable, ultra-soft hood protects the head and neck from particulates, while also providing excellent mobility and unrestricted hearing during -firefighting activities.

ZONE 2: ARM GUARD

Elasticized wrist shields and enhanced **IsoDri®** knit wristlets with **Nomex® Nano Flex** help block particulates at the coat-to-glove interface.

ZONE 3: CORE GUARD

A **Nomex® Nano** multi-layered composite with an elasticized band helps reduce particulate ingress at the coat-to-pant interface.

ZONE 4: CLOSURE GUARD

Engages with just one zip. No extra steps to don the gear. Red hook and loop indicates when turnout coat is properly closed.

ZONE 5: LEG GUARD

Together, the elasticized ankle shield and **Nomex® Nano Flex** calf protector help block particulate exposure at the pant-to-boot interface.

3

No ingress at turnout coat, pant, glove, boot interfaces and closures

SETTING THE BAR FOR PARTICULATE PROTECTION

REDZONE™ Particulate-Blocking Hoods

LION RedZone Particulate-Blocking Hoods protect one of the most vulnerable areas of your body by blocking contaminants from touching your head or neck.

RedZone fire hoods provide superior protection for one of the most vulnerable areas of the body – the head and neck. Engineered for breathability, durability, and comfort, RedZone hoods offer cutting-edge barrier technology to block harmful particulates while allowing for flexibility and ease of movement. Choose from three particulate blocking technologies: **Stedair® PREVENT**, **Nomex® Nano Flex**, or **Stedair PREVENT CLEAR**.

AVAILABLE IN TWO
COLOR COMBINATIONS

REDZONE PREVENT CLEAR FEATURES & BENEFITS

- Blocks over 99% of particulates 0.1-1 microns in size throughout the entire hood
- Air-permeable design to help regulate core temperature and reduce heat stress (THL - 375)
- Streamlined, two-layer construction enhances flexibility, mobility, and unobstructed hearing
- Universal sizing for a comfortable fit
- Exceptional durability maintains particulate-blocking effectiveness even after 200 washes

GAME-CHANGING TURNOUTS MADE TO WORK HOW YOU DO

V-FORCE®

Tough, innovative turnouts
combining combat & sports
technology

Our high-performance V-Force turnouts feature an innovative **cut-in-motion V-Fit® Design** for ergonomic gear that moves the way your body does, while providing unparalleled protection.

What you see here ►►

A. COMFORT COLLAR

Ergonomically shaped to improve comfort, interface better with other PPE elements and deliver continuous thermal and moisture protection.

B. RAGLAN SLEEVES

Removes top-of-the shoulder pressure point Shaped like your arm to promote free, unrestricted movement and reduce hem rise.

C. V-FIT ELBOWS, LEGS & KNEES

Countoured legs, arms, cutouts, shaped elbow and knee pattern pieces allow natural arm and knee movement without restrictions or tugging.

CUSTOMIZABLE!

V-FORCE TURNOUTS
PROVIDE CUSTOM
SIZING AND ARE
AVAILABLE IN A
VARIETY OF MATERIAL
COMBINATIONS
WITH YOUR CHOICE
OF ADDITIONAL
GEAR OPTIONS.

D. V-NOTCH™ ELBOW & KNEE PCA REINFORCEMENTS

Distinctive notched polymer-coated aramid (PCA) reinforcements on elbows and knees protect against high-abrasion wear and help keep heat and moisture out.

E. STREAMLINED STORM FLAP

Reduces thermal build up, bulk and working weight.

F. EXTENDED CUFFS

Extra length over back of hand for additional thermal protection when extending your arms.

G. LEATHER- REINFORCED PANT POCKETS

Leather placed on the lower portion of each pant pocket for added durability (Additional pocket options are available).

H. CUFF AND KICK SHIELD PCA REINFORCEMENTS

Protects high-abrasion areas using self-fabric or polymer-coated aramid (PCA) reinforcements on cuffs, elbows, knees and kick shields.

I. VENTILATED TRIM™

Provides a conduit for the release of vapor and guards against the potential hazards of trapped moisture.

V-FORCE® COAT

Maximum Comfort

The V-Force coat is more comfortable than common firefighting coats because it's cut much differently. The seams are not at the shoulders and sides, but at the back. This significantly reduces hem rise when you're extending your arms. It also protects against SCBA straps pushing seams into your body and causing discomfort. Fitted sides provide a more tailored fit and better mobility.

Natural Arm Movement

The contoured raglan sleeves have a natural shaping. This combines with the V-Fit™ elbow to promote free and easy movement. The elbow is made up of cutouts, shaped

pieces and darts. This reduces bunching and the overall working weight of the coat. The elbow reinforcements are notched to give you superior thermal and moisture protection without impeding movement. The coat's cuffs extend over the back of your hand for additional thermal protection when reaching or pulling.

Reduced Working Weight

No detail has been overlooked. The streamlined storm flap reduces thermal build-up and working weight.

V-FORCE COAT

Cut-in-motion design includes contoured coat sides, for a fit that moves with your body during firefighting activities.

V-FORCE BI-SWING COAT

No tugging or binding at the shoulder. When your arms return to a natural position, the pleat closes so there's no bunching of material.

VIZ-A-V™ TRIM PATTERN

A distinctive trim pattern that accentuates the V-Force coat's fitted sides, while maximizing visibility.

WHEN YOU SEE THE

YOU KNOW IT
REPRESENTS LION'S
QUALITY AND PATENTED
V-FORCE®
COMFORT, MOBILITY
AND SAFETY.

EASY-GRIP POCKET TABS

These extended PCA pull tabs make it easier to access coat pocket contents while wearing gloves.

V-FORCE® PANTS

Pants That Allow You To Really Move, Without Sacrificing Comfort or Safety

V-Force pants are designed to accommodate all of the squatting, crawling and bending that firefighting and emergency rescues require. Contoured to fit how your legs move, this action-focused V-Fit® pant design delivers the best overall fit of any turnout pants available and offers the following features:

- A radial inseam for reduced fabric bunching in the crotch area
- An intricate series of cut outs and shaped pattern pieces enable free and easy leg movement
- Semper Dri™ thermal liner in the lower portion of the legs that reduces absorption and helps keep pants drier and the working weight low

5* PANT STYLE OPTIONS (Male & Female Cuts Available)

DESIGNED WITH YOUR SPECIFIC NEEDS IN MIND.

V-FORCE PANTS ARE AVAILABLE IN FIVE* DIFFERENT DESIGNS TO MEET YOUR SPECIFIC SAFETY AND COMFORT NEEDS ON THE JOB.

HIGH-BACK

The ultimate in thermal protection

A 5-inch backpanel extends above the waist

A unique hook and loop support pad attaches suspenders to the pants

Snap tabs fasten the suspenders to the front (V-Back™ High-Back Suspenders are required)

LUMBAR

A traditional waist with the LION Lumbar Support System

Integrated into the V-Force pant

Orthopedically designed to provide adjustable mechanical support when you're lifting, bending forward, standing or performing emergency rescues

BELTED

A low rise waist with belt loops

A 2-inch Kevlar® belt with thermoplastic and quick-release buckle

Suspender buttons available to give you the option of using the belt alone or adding suspenders

ULTRA-LOW RISE

A slim fit in the seat and thighs and a reduced front rise, which sits comfortably on the hips like a pair of jeans, without sacrificing thermal protection

The widened crotch gusset allows enhanced mobility and the waist height reduces bunching and wear and tear from wearing pants too low

* LION's Harness-Ready pant is also available.

Nomex®

V-FORCE® SPECS

A. Comfort Collar

Ergonomically-shaped to improve comfort and interface better with other PPE elements to deliver continuous thermal and moisture protection. Optional throat tab is available.

B. V-Fit® Elbows

Elbows include cutouts, shaped pieces and darts to allow natural arm movement without restrictions or tugging.

C. V-Fit® Legs & Knees

Contoured legs and knees employ cutouts, shaped pieces and darts to enable free and easy movement.

D. Extended Cuff

Extra length over back of hand for additional thermal protection when extending your arms.

E. Bi-Swing Back (Optional)

Inverted pleat in both the outer shell and liner system that expands as your arms move forward. No tugging or binding at the shoulder. When your arms return to a natural position, the pleat closes so there's no bunching of material.

F. Raglan Sleeves

Shaped like your arm to promote free, unrestricted movement and reduce hem rise.

G. Radial Inseam

The elimination of crotch seams reduces tension to give added comfort to your turnout gear. A banded insert runs continuously from

the top of the knee of one leg, through the crotch and to the top of the opposite knee. This not only increases comfort, but extends the useful life of your turnout pants.

H. LION Ventilated Trim™

Provides a conduit for the release of vapor and guards against the potential hazards of trapped moisture.

I. V-Fit® Sides

Contoured shaping delivers better fit and mobility, while reducing hem rise. Sides have a tailored fit to move with your body during firefighting activities.

J. Streamlined Storm Flap

Reduces thermal build up, bulk and working weight.

K. Viz-a-V™ Trim Pattern

A distinctive, high-visibility pattern comprised of Ventilated Trim (3M™ Scotchlite™ Reflective Material) that follows upper body shape.

L. Ever-Dry™ Reach & Wrist Shield System

This system securely seals the wristlet of your turnout coat to your wrist. When you reach, the wristlet and moisture barrier travels with your wrist to minimize exposure to water, steam and flame. This system employs Semper Dri™ in the waterwells of the coat sleeves.

M. IsoDri® Moisture Management System

An engineered system that manages moisture by a combination of materials

that block outside sourced water, wick perspiration off the body, and resist storing water inside the thermal barrier. Keeps working weight low and helps guard against steam-related injuries.

N. Yoke Extra Thermal Protection

Yoke of coat employs Semper Dri™ to reduce water absorption and enhance thermal protection.

O. Lite-N-Dri™ Knees

Water-resistant FR Lite-N-Dri cushioning between the moisture barrier and thermal liner to enhance thermal protection. Includes another layer of Lite-N-Dri between the outer shell and the knee reinforcement.

P. Semper Dri™ System

Reduces water absorption in pant legs, coat cuffs and yoke to keep your working weight lighter.

Q. Reinforcements

Protects high-abrasion areas using self-fabric, polymer-coated aramid or leather reinforcements on cuffs, elbows, knees and kick shields.

R. Drag Rescue Device (DRD)

Durable and easy-to-access, yet designed to be unobtrusive and out of your way. The only time you'll feel it is when it's deployed.

S. Liner Inspection System

Opening allows you to easily examine film side of moisture barrier and inside of thermal liner. Makes Complete Liner Inspections easier and faster.

WOMEN'S CUT GEAR

Custom turnout gear engineered especially for female firefighters.

Properly sized gear is essential for firefighters to perform their duties effectively and safely. But great gear fit can be especially challenging for female firefighters. To combat that, LION turnouts are designed to match the unique proportions of women – including adjustments in **coat length**, **pant sizing**, and **overall fit** to provide optimal comfort and functionality. This allows you to focus on fighting fires, not your gear.

SUPER-DELUXE™

LION Super-Deluxe gear features our patented **Freedom® Design**, which reduces firefighter body stress through a series of innovative, ergonomic features that help deliver exceptional mobility and comfort.

What you see here ►►

A. COMFORT COLLAR

Comfort collar and optional throat tab deliver continuous thermal and moisture protection while providing exceptional interface to SCBA mask

B. FREEDOM ELBOWS

Enable the arm to bend freely while keeping the wrists protected by reducing sleeve travel

C. FREEDOM KNEES

Provide gussets that the knee can fit into when crawling, climbing, bending and kneeling, resulting in unrestricted movement

D. STREAMLINED STORM FLAP

Reduces thermal build up, bulk and working weight

E. HOOK & DEE RING CLOSURES (OPTIONAL)

Includes a hook and loop closure strip under the storm flap

F. OVER-THE-HAND WRISTLETS

8" KEVLAR®/ Spandex® thumb hole knit wristlets that provide added thermal hand protection and stay securely in place

G. EVER-DRY™ REACH SYSTEM

A unique attachment system allows turnout sleeve wristlets and the moisture barrier to move with your wrist when your arms are outstretched, minimizing exposure to water, steam and flame.

H. LEATHER REINFORCEMENTS

Reinforced knees, cuffs, kick shields, shoulders and elbows offer added thermal protection and extended wear life.

I. LION VENTILATED TRIM™

Provides a conduit for the release of vapor and guards against the potential hazards of trapped moisture.

CUSTOMIZABLE!

SUPER-DELUXE TURNOUTS PROVIDE CUSTOM SIZING AND ARE AVAILABLE IN A VARIETY OF MATERIAL COMBINATIONS WITH YOUR CHOICE OF ADDITIONAL GEAR OPTIONS.

SUPER-DELUXE™ SPECS

A. Comfort Collar

Ergonomically-shaped to improve comfort, interface better with other PPE elements and deliver continuous thermal and moisture protection. An optional throat tab is available.

B. Underarm Bellows Sleeves

Arm bellows compress and expand to reduce hem rise and sleeve travel, resulting in added protection.

C. Drag Rescue Device (DRD)

Extremely durable and easy-to-access, yet designed to be unobtrusive and out of your way. The only time you'll feel it is when it's deployed.

D. Ever-Dry™ Reach & Wrist Shield System

This system securely seals the wristlet of your turnout coat to your wrist. When you reach, the wristlet and moisture barrier travels with your wrist to minimize exposure to water, steam and flame. This system employs Semper Dri in the waterwells of the coat sleeves.

E. Thermoplastic Zipper Closure

Thermoplastic zipper coat and pants closure with hook and loop. Pants also have a snap storm fly closure.

F. Reinforcements

Reinforced knees, cuffs, kick shields, shoulders and elbows for thermal protection and added wear life.

G. Ventilated Trim™

Provides a conduit for the release of vapor and guards against the potential hazards of trapped moisture.

H. Breathable Moisture Barrier Closures

Storm flap, waterwells and fly facing are all lined with breathable moisture barrier material for dryness and protection.

I. Zip-In Coat Liner

Coat liner zips into outer shell for reliable attachment, reduced bulk and outstanding comfort.

J. Semper Dri™

Reduces water absorption in pants

legs, coat cuffs and yoke to keep your working weight lighter.

K. Lite-N-Dri™ Knees

Knees with water-resistant FR Lite-N-Dri cushioning between the moisture barrier and thermal liner to enhance thermal protection. Includes another layer of Lite-N-Dri between the outer shell and the knee reinforcement.

L. Adjustable Fit Take-Up Straps

Pants have waistband and external take-up straps for a comfortable fit.

M. Liner Inspection System

Opening allows you to easily examine film side of moisture barrier and inside of thermal liner. Makes Complete Liner Inspections easier and faster.

N. Yoke Extra Thermal Protection

Yoke of coat employs Semper Dri™ System to reduce water absorption and enhance thermal protection.

GEAR SUSPENDERS

EZ H-Back™ Suspenders

LION's EZ H-Back Quick Adjust Suspenders offer unmatched durability, flexibility, and ease of use. Designed for firefighters seeking a secure and customized fit, these suspenders provide options for non-stretch, stretch, and reflective variations. The adjustable design ensures maximum comfort in high-stress environments.

FEATURES:

- **Non-Stretch and Stretch Options:**
Choose non-stretch designs for rigidity or stretch designs for flexibility and movement.
- **Nomex® Tab Options:**
Enhanced heat resistance with quick attachment using Nomex tabs.
- **Metal O-Rings and Rectangular Loops:**
Secure, durable attachment points that ensure stability and reliability.
- **Reflective Trim Options:**
3M™ Scotchlite™ reflective material increases visibility in low-light conditions.
- **Quick Adjust System:**
Easy-to-use adjustment system for personalized fit and comfort.

V-Back™ Suspenders

The V-Back Quick Adjust Suspenders provide advanced support and flexibility for V-Force® turnout pants and other non-high-back pants. These suspenders are designed to evenly distribute weight and enhance mobility with a quick-tug adjustment mechanism that delivers a perfect fit every time.

FEATURES:

- **Stretch Padded Design:**
Increased comfort during long hours on the fireground.
- **Nomex® Tab Options:**
Provides flame resistance and quick securement.
- **Metal O-Rings and Rectangular Loops:**
Durable connection points that ensure stability in high-stress situations.
- **Hook and Loop Fasteners:**
Reliable fastening options for V-Force High-Back Pants.
- **Quick Adjust System:**
Delivers a secure, custom fit with minimal effort.

ESCAPE & RAPPELLING

Personal Rescue System

The Personal Rescue System from LION integrates all escape components (50-foot escape line, descender, anchor, a quick link and a tether) and stows them in a cargo pocket on the leg of turnout pants. It can be deployed using any escape belt or Class II life safety harness.

Choose from horizontal or vertical split cargo pockets. Each keeps the rope from becoming entangled with the other hardware. The Personal Rescue System is available on most LION turnouts. It can also be retrofit to any manufacturer's turnout pants and works with the LION Integrated Class II Harness, the LION Escape Belt (see next page) or with any manufacturer's Class II harness or escape belt.

The Personal Rescue System integrates all escape components and stows them in a cargo pocket on the leg of turnout pants.

ESCAPE & RAPPELLING

CLASS II A-FRAME
RESCUE HARNESS
(DEPLOYED)

INTEGRATED
CLASS II HARNESS

AeroScape™ Integrated Class II Rescue Harnesses

LION Class II Integrated Harnesses are comfortable, lightweight and easy to adjust. Sitting high on the waist, the harness belt is positioned with the best center of gravity and allows easy access to the waist adjustment. A series of custom belt loops capture the belt and closure hardware for quick, one motion donning with the pant fly.

LION's innovative design situates the leg loops internally between the outer shell and thermal liner, protecting them from snag hazards, while allowing for outside-the-pant adjustment. Stationary and sliding D-ring options provide simple and convenient connection to your personal rescue system.

FEATURES & BENEFITS:

- ▶ Durable FR para-aramid webbing
- ▶ Waist and loop leg adjusters
- ▶ Stationary and sliding D-ring
- ▶ Fly/belt loop system integration for easy closure

The LION Integrated Class II Rescue Harness is designated and certified as an NFPA 1983, Class II Life Safety Harness and meets the requirements of NFPA 1971.

LION HARNESSES & ESCAPE BELTS BY CMC

AeroScape™ Adjustable Escape Belt

The ergonomic LION-CMC Escape Belt allows for easy adjustability and proper positioning on the body along with convenient attachment to a personal rescue system. A user-friendly design allows fastening with a gloved hand over the turnout pant waist.

FEATURES & BENEFITS:

- ▶ Stationary and sliding D-ring
- ▶ Durable FR para aramid webbing
- ▶ Fly/belt loop system integration for easy closure
- ▶ Elastic keepers to hold excess webbing

Certified to meet NFPA 1983 as an escape belt and as a ladder belt when used with an optional ladder tether (not included).

MULTI-PURPOSE RESCUE WEAR FOR EXTRICATION, EMS & WILDLAND

USAR/TECH RESCUE

VersaPro®

LION created the VersaPro and VersaPro Plus to meet the wide variety of situations that first responders encounter. This dual-certified NFPA 1951 Utility/1977 Wildland garment is perfect for extrication, technical rescue and scene investigation. It offers more protection than a station uniform, but it's less cumbersome than structural turnouts. It can also help reduce wear and tear on your turnout gear.

FEATURES:

- Extremely durable, yet very comfortable Sigma™ fabric
- A bi-swing back for added mobility and comfort
- Radio and cargo pockets offer the space to keep you prepared
- Lite-N-Dri™ knee cushioning offers additional padding and knee protection

In addition to all the same great features as VersaPro, VersaPro Plus offers:

- Additional Hi-visibility trim
- PCA elbow and knee reinforcements
- Two layers of Lite-N-Dri knee padding
- A flashlight strap

TR51™

The LION TR51 is an extremely versatile technical rescue garment. Certified to meet NFPA 1999 as well as 1951 Rescue and Recovery, you can use it for both EMS duty and technical rescue tasks. The TR51 is offered in various outer shells for tough and durable extended wear life. The CROSSTECH® SR removable barrier provides liquid penetration resistance to water, blood, and bodily fluids. This barrier can also be removed for technical rescue utility scenarios.

FEATURES:

- Ergonomic-design for optimal rescue and recovery performance
- 3M™ Scotchlite™ Reflective Material makes sure you're seen in low-light and daylight conditions
- Adjustable coat and pant features for a more personalized fit
- Durable, high-quality construction
- Additionally, there are plenty of task-specific pockets for the tools of the trade
- Available in male and female models

MEDICAL RESPONSE

MedPro™ Emergency Medical Rescue Wear

Designed specifically to meet the demanding needs of today's EMS professionals, LION's MedPro EMS coat and pant combination features advanced construction and optional enhancements that ensure on-the-job comfort, safety and mobility.

FEATURES:

- Certified to meet NFPA 1999 for advanced protection (Also available in Hi-Vis Yellow, certified to meet ANSI 107)
- High-performance, Westex® DH fire-resistant outer shell with a Hydropel Premier finish for comfortable, durable protection against flash fires
- CROSSTECH® EMS moisture barrier protects

against blood, bodily fluids and water, while remaining breathable

- Superior mobility thanks to a banded crotch, a bi-swing back and underarm bellows
- PCA-reinforced elbows and knees with Lite-N-Dri cushioning for added durability
- Numeric sizing, take-up straps and zippered legs for a custom fit that's easy to don and doff
- Available in male and female models

OPTIONS:

- A detachable lined hood for additional head protection
- Self-fabric cuffs, knees and elbows
- Belt and belt loops or suspenders offer a secure, comfortable custom fit
- A removable winter liner provides added protection against cold temperatures
- Custom lettering for department and personal identification

FIRE & EMS BOOTS

High-quality work boots that provide safety, comfort and durability.

Whether you're responding to structural fires, wildland fires or medical responses, LION offers a full suite of first responder footwear to get it done. Partnering with Thorogood®, to provide you with high-performance, high-quality leather and rubber fire boots that don't stop performing until the job is done.

QR14™

14" Structural Fire Leather Boot

Our popular slip-resistant QR14 boots are built for comfort, durability and safety. The flex gussets allow the boot to move with you. 3M™ Scotchlite™ Hi-Vis piping in these waterproof, flame- and cut-resisting leather boots creates a high-visibility look when exposed to direct light. Additionally, the slip-resisting outsole with 90 degree heel and ladder grips provide exceptional traction on any surface. Other key features include:

- GORE® CROSSTECH® triple-layer moisture barrier protects against blood-borne pathogens
- Abrasion-resisting rubber toe
- Steel Triple-Rib Ladder Shank
- Proprietary Traction Flex outsole
- Cement Construction
- CSA Z195-14 Edition-7

FIRE & EMS BOOTS

KnockDown Elite™

14" Structural Fire Leather Boots

Featuring our exclusive Vibram® Fire & Ice All-Terrain sole, these waterproof, cut-resistant leather upper boots go on with ease and hold you firmly in place until you use the handy heel kick plate to take them off. They also include a removable dual-density polyurethane insole.

HellFire™ (Felt)

14" Structural Fire Rubber Boots

These waterproof, heat-resisting, and shock-absorbing rubber boots feature a lug sole and stainless steel, puncture-resisting bottom plate. They also include an oversized steel toe, durable Vulcanized construction and a 3.5mm polyester needled felt liner with heel reinforcement.

FIRE & EMS BOOTS

HellFire™ (Kevlar)

14" Structural Fire Rubber Boots

Like the felt-lined HellFire, these rubber boots are waterproof, heat-resisting, and shock absorbing. Likewise, they also feature a lug sole and a stainless steel, puncture-resisting bottom plate. They also include an oversized steel toe and durable Vulcanized construction. But, instead of felt, these rubber boots feature a Kevlar® yellow knit one-piece liner that's five times stronger than steel.

Station 1™

9" EMS/Wildland Leather Boots

With their exclusive Vibram® All-Terrain Sole and GORE® CROSSTECH® moisture barrier, these boots provide exceptional traction and waterproofing. Safety features also include cut-resistant leather, a flexible Lenzi L-Protection® puncture-resistant insole, a steel triple-rib ladder shank and a composite safety toe

HELMETS MAXIMIZING SAFETY, FIT & FUNCTION

FIRE HELMETS

American
Honor™

High-performance fire helmets with exceptional fit and protection.

LION fire helmets are engineered from a first responder's perspective for the best fit and protection out there. With that in mind, our helmets feature our patented Center of Gravity™ adjustment system allows your helmet position to your liking and keeps it in place. LION helmets are available in a variety of shell materials, eye-protection and color options. The result is a customized fire helmet that's comfortable, but provides optimum heat and impact resistance.

American Honor™ LOW PROFILE, MODERN-STYLE SMC HELMET

- Impact-resistant matte finish shells with through color to resist cracking and chipping
- Fits the LARGEST range of head sizes (19"-27")
- Available with NFPA-compliant face shields, goggles, integrated goggles, or flip downs*
- Nomex®/flannel ear covers for added neck/ear protection*
- Easy-to-remove QuickClean™ Soft Goods System designed to make frequent laundering fast and easy*
- Innovative inner layer polyurethane foam thermal barrier takes the heat, keeping the wearer cool*
- 3M™ Scotchlite™ Reflective Material (1" x 4" lime-yellow bars)*
- Quick-release, easy-adjust extended-length chin strap*
- Available in Black, Yellow, Red and White

* Standard LION helmet feature

PRODUCTS

FIRE GLOVES

Firefighter-tested hand protection

As a firefighter, your hands need to retain dexterity so that you can do things like advance a hose line or swing an axe with precision. The stakes can be high. So you need to fire gloves that can get the job done.

LION's NFPA 1971-certified structural fire gloves provide you not only with outstanding fire protection, but also the great fit, comfort and dexterity your work requires on the fireground. Hands down.

Victory®

- Advanced 3D design with top grain leather fourchettes for maximum dexterity
- Heat-resistant, flexible, and water-repellent goatskin Eversoft® split leather outer shell
- Aramid wool blend inner layer with added padding on the back of hand for increased thermal protection
- GORE® CROSSTECH® moisture barrier for lightweight, breathable, superior liquid penetration protection
- Enhanced palm stitching for stronger grip
- Leather pull-tab for easy donning and doffing
- Color: Cognac/Black
- Sizes: XXS - 4XL (Cadet: S - XXL)

Commander™

- Enhanced gunn-cut pattern provides increased comfort and better wear
- Side-split cowhide leather shell provides outstanding, long-lasting water repellency, superior softness and peak thermal insulation performance in high-heat conditions
- Breathable in wet conditions and stays soft and stays pliable when air-dried
- GORE® CROSSTECH® Insert glove moisture barrier for better flexibility, less bulk in the palm and improved dexterity
- Color: Gold/Black
- Sizes: 2XS - 4XL, Regular & Cadet

TAKING PROTECTIVE SOLUTIONS TO ANOTHER LEVEL

CHEMBIO GARMENTS

Class 1, Level A multi-threat CBRN suits that can be used again.

Chembio incidents don't have to mean hot and muggy disposable suits. LION CBRN offers several NFPA-certified chembio garments to provide mission-specific protection. Each is lightweight and comfortable, and can be reused as long as you're not exposed or contaminated.

MT94™ & MT94-R™

Certified to meet NFPA 1992 as well as NFPA 1994 Class 1 and Class 2 requirements. These garments protect against vapor and liquid. Also delivers FR protection for chembio incidents (TICs, TIMs and CWAs). Available in front and rear entry configurations.

The ruggedized, rear-entry MT94-R™ is also available (Not shown) and is certified to meet NFPA 1994 Class 2R and NFPA 1992.

BENEFITS:

- Reduced donning and doffing time
- Reduced weight
- Reduced heat stress
- Increased vision, no fogging
- Increased mobility and range of motion
- Increased glove dexterity

PROTECTION APPLICATIONS:

- Hazardous waste
- Drug labs
- Biological threats
- Domestic terrorism agents

UNIFORMS BUILT FOR COMFORT & DESIGNED TO LAST

FIRE UNIFORMS

Top notch uniforms designed for the demands of the job.

The job of first responders is unpredictable. You need a uniform with the strength and performance to stand up to the rigors of the job and still stay looking sharp. When you go out on a call, people know with one look that you are an emergency professional. Your uniform is a big part of that.

LION Uniforms (featuring Elbeco brand uniforms) offer a wide range of NFPA 1975-compliant and non-certified uniforms, including:

- Stationwear
- Outerwear
- Class A Dress Uniforms

Our certified uniforms are made with pocketing, labels, waistbands, zipper tape and sewing thread that meets NFPA

standards. This attention to detail includes both Nomex and FR Cotton certified fire service uniform options.

No matter what your department needs in a uniform, LION uniforms have you covered and ready for action.

BENEFITS:

- A variety of professional designs with features that facilitate job performance
- Uniform pants and shirts that are available in female as well as men's cuts
- High-quality, durable construction and enhancements that meet the challenges of your job

**QUALITY PPE
MAINTENANCE
DEDICATED TO
KEEPING YOU
SAFER, LONGER**

TOTALCARE® SERVICES

RedZone™ CO2 Clean

Turnouts and other PPE represent a major investment for your department. With dwindling budget dollars, you want maximum return out of your investment, while maintaining optimum levels of safety.

LION TotalCare, a leader in PPE maintenance and repair, can help save you money and keep your gear safer, longer.

Part of our contaminant control suite of products and services, TotalCare is a NFPA 1851- verified ISP recognized by all PPE manufacturers. Additionally, TotalCare provides professional maintenance services that help enhance firefighter safety, extend the life of your PPE and save you money.

TotalCare Services Include:

- Advanced Inspection
- Advanced Cleaning
- Decontamination and Disinfection (featuring RedZone™ CO2 Clean and Ozone Cleaning)
- Repairs
- Retrofits and Alterations
- Emergency Back-Up Gear
- NFPA 1851 Recordkeeping
- Customized Programs
- Flat-Rate Programs
- UL Certified to NFPA 1851, 2020 Edition

LION TotalCare E-Z Gear™ Rental

Finding safe protective equipment shouldn't be a training challenge, but often it is. LION TotalCare's E-Z Gear Rental remedies this through its easy-to-use, online turnout, helmet, hood, glove and boots.

These affordable PPE ensembles are certified to meet NFPA 1971, fit properly and **ship within five business days**. E-Z Gear Rental is a perfect solution for fire academy students, training instructors and fire departments.

For more information on LION's head-to-toe rental fire gear, visit www.EZGearRental.com.

REALISTIC, REPEATABLE FIRE TRAINING SCENARIOS

TrainingReady™
Smart Class B
Fire Training Unit

FIRE TRAINING TOOLS

Helicopter Training Prop & SmartDummy™

Fire training that's ready whenever you are.

ATTACK™ Digital Fire Training System

LION FIRE TRAINING PRODUCTS INCLUDE:

- Live-Fire Training Props
- Digital Fire Training
- Gas-Based Fire Training
- Smart Class A Fire Training
- Fire Safety Trailers
- Containerized Training
- Business & Industry Extinguisher Training

LION fire safety training tools allow you to safely train your team in various environments. From our **digital training props** that provide realistic, yet controlled scenarios to our gas-based props that evaluate the training situation with real fire to our **fully-customizable carbonaceous fire situations**, LION provides you with the right tools, situations and structures to train based on fire crew experience levels and training goals. Additionally, depending on the system, fire instructors can run repeatable and variable evolutions at the push of a button. Our realistic training tools simulate fire growth and behavior. Thermal sensors, along with self-generating digital flames and sound effects, provide an interactive training experience.

PPE RESOURCES

LION Fire Academy PPE Training

LION Fire Academy is your free online destination for PPE resources and education. Here, you'll find PPE videos, training aids and links. Upon successful completion of the full LION Fire Academy program, you'll also receive **Continuing Education Units (CEUs)**. LION Fire Academy topics include:

NFPA 1500

PPE Safety & Use Training

Learn what every firefighter should know before using NFPA 1971-compliant gear through an in-depth, 12-part video series.

NFPA 1851 Care & Maintenance Training

This video series trains you to perform Advanced PPE Inspections, Advanced PPE Cleaning and Basic PPE Repairs.

Take the test after each video to earn your **PPE Safety and Use** and **Manufacturer Trained Personnel** certificate.

To start your online LION Fire Academy training, visit www.lionfireacademy.com.

FASET PPE Tracking

FASET (exclusively from LION) is a web-based fire and safety equipment tracking software program that offers real-time PPE asset management at your fingertips. This tool allows you to track all record-keeping elements required for fire department compliance to NFPA 1851, Standard on Selection, Care, and Maintenance of Structural Fire Fighting and Proximity Fire Fighting Protective Ensembles.

FASET also provides the capability to track hoses, ladders, SCBA, rescue tools and anything else you want.

- **Easy to learn and easy to use**
- **Free Help Desk support**
- **Inspection scheduling is made easy**
- **Saves you time and money**

Software licenses for FASET can be purchased from LION. Contact your LION dealer for additional information. LION also offers an optional Symbol LS2208 scanner (The scanner captures manufacturer's information for error-free data).
