INTRODUCING

HeroShield™

NFPA 1975 Certified Uniforms

FEATURES & BENEFITS

- ▶ 100% Cotton fabric quickly burns away and will not melt or drip onto skin
- ▶ Enhanced fit and updated cuts make these uniforms more comfortable than previous styles
- ▶ NFPA-complaint FR cotton fabric offers an extra layer of protection as part of your PPE system
- ▶ Additional pockets increase the functionality of your uniform
- ▶ Construction and reinforcements that meet the challenges of your job head on
- ▶ May be considered where critical static control is required
- ▶ Good moisture regain
- ▶ Machine washable
- ▶ Estimated wear life: One year

* Ensures emergency services work clothing is flame-resistant and won't cause burns.

HeroShield™

NFPA 1975 Certified Uniforms

LION's new Elbeco HeroShield™ certified uniforms are specifically designed for the unique needs of professional firefighters and paramedics, striking an ideal balance between safety, durability, and comfort. Made with untreated cotton fabric designed to burn away quickly and not melt, these meet the NFPA 1975 standards for protective wear, offering superior safety in the face of fire-related hazards. HeroShield uniforms will endure frequent washing and wear without losing their protective qualities. HeroShield uniforms are packed with innovative and functional features to keep you ready for whatever the job throws your way.
