

# TRAIN FOR EVERY SITUATION

LION's innovative solutions help fire departments and academies train more safely, sustainably and effectively.

## Digital systems

These high-tech solutions allow firefighters of all skill levels to train anywhere in realistic scenarios—all at the push of a button.

## Live-fire training

We also offer training tools that feature live flames. These include burn trays, training props, building structures and more.

## Immersive accessories

Take your training to the next level with our non-toxic smoke generators, weighted rescue dummies and HAZMAT gear.

**Prepare your team.**

training solutions.

# KEEP YOUR GEAR SAFER THAN EVER

LION TotalCare keeps all brands of firefighter PPE clean and compliant. And that keeps you healthy and safe.

## Cutting-edge cleaning

Our PPE cleaning and decontamination solutions surpass industry standards and protect firefighters from today's most harmful elements.

## Meticulous inspection

We examine your gear, including moisture barriers and liner systems, to flag any issues before they become a hazard.

## Quality repair

Our work meets all NFPA safety standards and helps extend the life of your protective gear, which saves you money on replacement costs.
