

LION[®]
ready for action

TOP-LEVEL FIREFIGHTER HEAD PROTECTION

High-performance fire helmets that
maximize fit & safety

DURABLE, IMPACT-RESISTANT, & LOW-PROFILE HELMETS

BUILT TO PROTECT DESIGNED TO FIT.

At LION, we understand that your helmet is more than just equipment—it's a lifeline. Engineered to endure, designed for comfort, and built with your safety at the forefront, our helmets deliver the reliability and performance you need in the heat of the moment.

Whether you're on the front-lines of a fire, tackling demanding rescue operations, or navigating hazardous environments, LION helmets are crafted to protect you when it matters most. With advanced technology, premium materials, and a focus on customizable comfort, we empower you to stay safe, focused, and ready for the challenges ahead.

Browse our collection to find the perfect helmet for your mission. From the traditional to the modern, LION helmets are as tough as the heroes who wear them.

Gear Up. Perform. Protect.

AMERICAN HONOR™

CALL 1.800.421.2926

AMERICAN HONOR™

Constructed with high-performance composite materials, the **American Honor** fire helmet offers durability, comfort, and reliability on the job. Advanced materials and smart design reduce stress load while remaining "heavyweight" when it comes to taking a hit.

DURABLE, MATTE FINISH SHELL

Impact-resistant distressed finish shells with through color means the look you want remains during the life of the helmet.

UNMATCHED SIZE RANGE

Fits the **LARGEST** range of head sizes in the market: 19-27" (Smaller than the traditional smallest hat size of 6¾ AND extending well beyond the largest 8¾) to ensure proper fit.

SUSPENSION

Patented Center of Gravity™ adjustment system lets you set the center of gravity to your liking and keeps it positioned in place. The suspension system is removable for easy inspection, cleaning or maintenance.

CHIN STRAP

Easy-to-adjust, quick-release chin strap with extended length.

NFPA 1970 EYE PROTECTION

Choose from three options:

- ▶ ESS Goggles
- ▶ High-Temperature 4" APEC Face-shield (with thumb-wheel adjustments)
- ▶ Flip-downs with goggles
- ▶ Integrated Eye Shield

EAR & NECK PROTECTION

Nomex fiber/flannel covers come in black. Other cover materials/colors are available upon request.

ADDED VISIBILITY

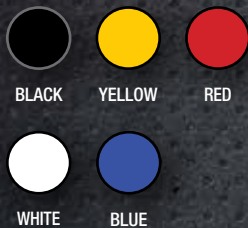

3M™ Scotchlite™ Reflective Material (1" x 4" lime-yellow strips)

QUICKCLEAN™ SOFT GOODS

Featuring an easy-to-remove QuickClean soft goods system designed to encourage frequent laundering because cleaner gear is safer gear. The entire suspension system can easily be removed and placed in the mesh bag, saving you the time and the hassle of removing small pieces.

Lightweight Construction. Heavy Protection.

Built strong to last long, using state-of-the-art composites to form the lightest, strongest **American Legend** fiberglass fire helmet **EVER**.

DURABLE, MATTE FINISH SHELL

Impact-resistant distressed finish shells with through color means the look you want remains during the life of the helmet.

UNMATCHED SIZE RANGE

Fits the **LARGEST** range of head sizes in the market: 19-27" (Smaller than the traditional smallest hat size of 6 $\frac{3}{8}$ AND extending well beyond the largest 8 $\frac{3}{4}$) to ensure proper fit.

CHIN STRAP

Easy-to-adjust, quick-release chin strap with extended length.

LOWEST PROFILE TRADITIONAL

The lowest profile traditional helmet you can find means you feel balanced and secure without added height that interferes with your ability to move quickly. Patented Center of Gravity™ adjustment system lets you set to your liking and keep positioned in place – save the wiggle and the wobble for the dance floor.

NFPA 1970 EYE PROTECTION

Choose from four options:

- ▶ ESS Goggles
- ▶ High-Temperature 4" APEC Face-shield (with thumb-wheel adjustments)
- ▶ Flip-downs with goggles
- ▶ Integrated Faceshields

ADDED VISIBILITY

3M™ Scotchlite™ Reflective Material (2" x 2 $\frac{1}{2}$ " lime-yellow trapezoids)

SHIELD HOLDER

Hand-carved brass eagle leather shield holder.

EDGE BINDING

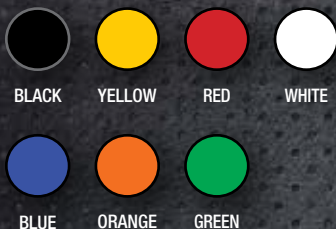

Aluminum core edge binding is durable, but light.

QUICKCLEAN™ SOFT GOODS

Featuring an easy-to-remove QuickClean soft goods system designed to encourage frequent laundering because cleaner gear is safer gear. The entire suspension system can easily be removed and placed in the mesh bag, saving you the time and the hassle of removing small pieces.

AVAILABLE COLORS:

Available in Black, Yellow, Red, and White.

Want high gloss?

We can FR paint our helmets in standard colors (Black, Red, Yellow and White) as well as Blue, Orange and Green.
