Smoke Generators

Safe Smoke at the Push of a Button

Create realistic training environments—and drastically reduce your exposure to harmful carcinogens—with our state-of-the-art smoke generators.

Our water-based smoke lets you focus on training and not worry about the health risks of smoke exposure. The smoke generators work for any scenario, from large firefighting drills to small training sessions with digital extinguishers.

Increase Realism

Dense, consistent smoke helps create the low-visibility conditions you need to practice safely and effectively.

Create Seamless Scenarios

Wirelessly sync the generators with other LION training products so the smoke output matches the size of the fire.

"LION collaborates with us to help design our training, which helps us keep our community safe."

Michael C. Mire
Assistant Fire Chief,
Houston Fire Department

Smoke Generator

Our Models

Choose the cordless SG1000™ for mobile scenarios and smaller spaces, or the high-output SG4000™ for full-scale firefighter sessions.

RELATED PRODUCTS

Smoke Liquid

LION's Smoke Liquid is specially designed to produce smoke that has virtually no traces of dangerous chemicals. And it doesn't leave behind any sticky residue.

Cleaning Solution

Our cleaning solution keeps your SG4000 working like new. Simply run it through the smoke generator for easy and efficient maintenance.

Note: The solution is not intended for the SG1000 model.
