QuickFire™

VR FIRE EXTINGUISHER TRAINING

Step Into the Action

Battle virtual flames in realistic environments with QuickFire™, our latest fire extinguisher training solution.

The system combines a high-tech headset and realistic extinguisher prop to provide hands-on training—without live flames, smoke or cleanup. You can choose from a range of pre-programmed fire types and locations to help trainees respond confidently to different situations.

Build Confidence

Virtual scenarios help teams practice proper extinguisher techniques before a real emergency occurs.

Train Anywhere

Bring realistic fire extinguisher training to classrooms, offices, manufacturing sites and other environments.

Increase Engagement

Make training more engaging and memorable with timed and interactive events—including gamification.

Scale Your Operations

Broadcast VR sessions to the class to encourage group participation and make training more collaborative.

"LION's QuickFire system enables us to create less mess, offer more realistic scenarios and expand participation"

Jeff Warren
University Safety Coordinator

QuickFire™
VR Fire Extinguisher Training

Taking It to the Next Level

QuickFire brings realistic extinguisher training anywhere.

FEATURES

Multiple fire types

Choose from Class A, B or C fires to teach people how to respond to each classification.

Different locations

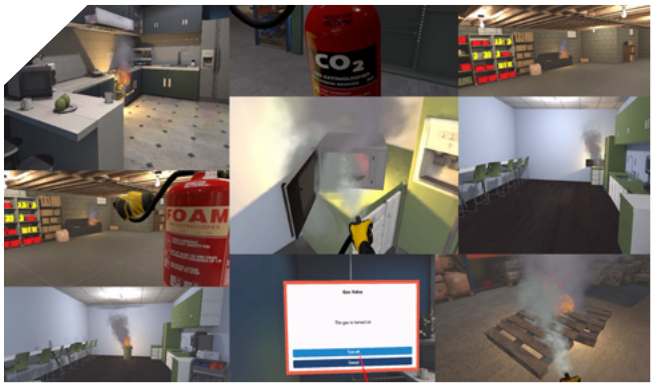

Practice in common workplace locations like a kitchen, break room or warehouse floor.

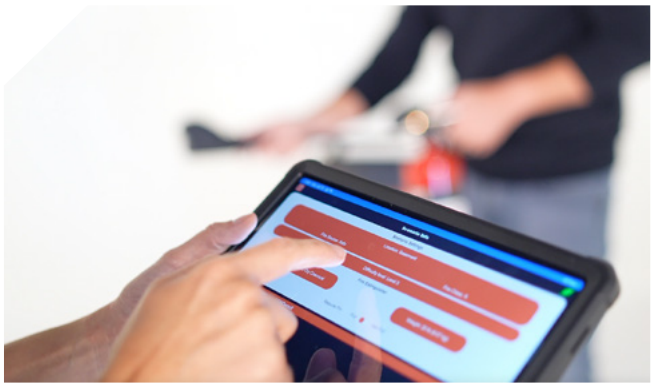

Continuous updates

Active partnerships grow with the system, offering continuous access to new training scenarios.

Subscriptions

Sign up for a QuickFire subscription plan that covers content management, reporting and analytics.

Ready for the Future of Fire Safety?

Visit our website or contact your LION representative to learn how QuickFire can help your organization train more people, more effectively.

Trusted for More than a Century

For more than 125 years, customers have counted on LION as a trusted safety partner. Our innovative training solutions are scalable, easy to deploy and built for real-world challenges—helping keep people and resources safe while preparing fire and safety leaders for whatever comes next.
